Assembling display instructions

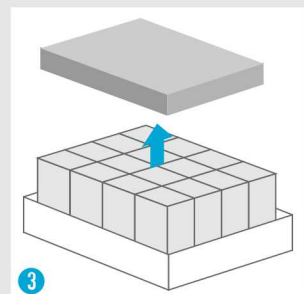

1 Remove the display crowner and any instructions if present.

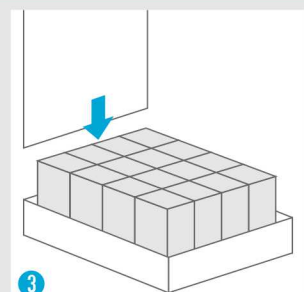

2 Remove the protective film using a cutter or scissors, being careful not to damage the products inside the display.

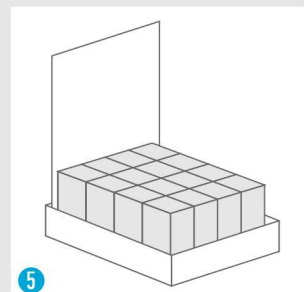

3 Remove the protective sponge as shown in the figure.

4 Insert the crowner into the back of the display, taking care to insert the side with the product description in the direction of the products.

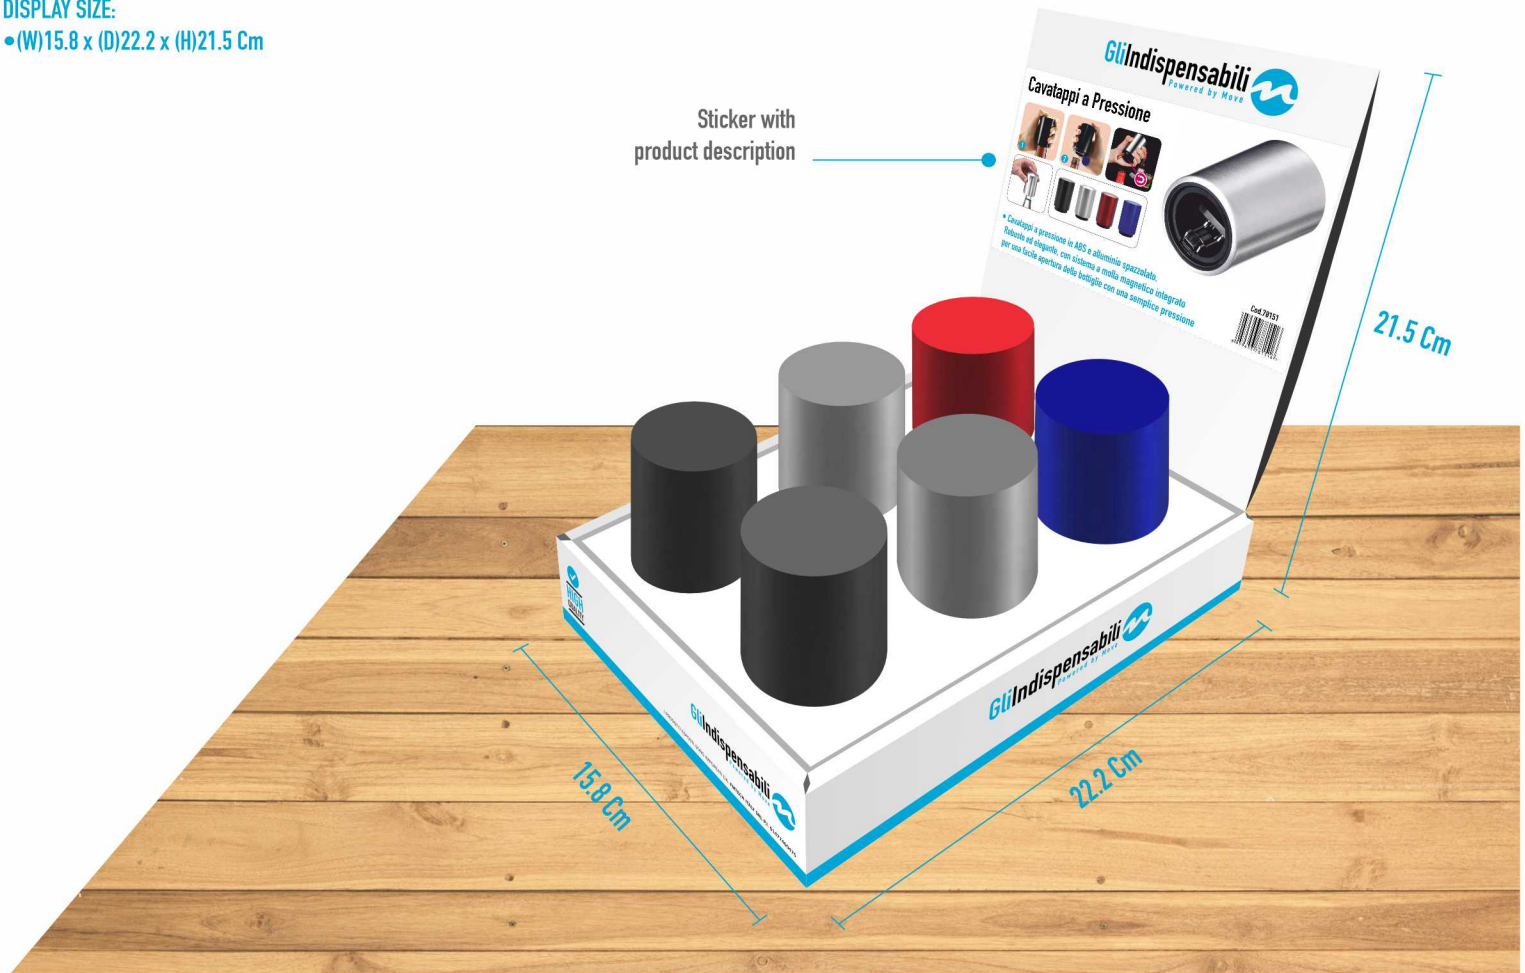

5 Check that the products are correctly inserted in the base and if necessary arrange them correctly before putting them on display.
